GAZ
NO GAZ
MMA

1.PHASE INVERTER

Supplied with

150 A, 2,5 m

2 m, 16 mm²

2 m, 16 mm²

MULTIPROCESS

- **MIG/MAG with gaz**

(wire: Ø 0.6 to 0.8 mm)

- **MIG/MAG no gaz**

(cored wire: Ø 0.8 to 1.0 mm)

- **MMA** with basic and rutile electrodes (up to Ø 3.2 mm).

Intuitive interface

- Welding voltage

- Wire speed and Welding power

- Arc dynamic

PRE-HEATING, PURE CO₂

Pre-installed socket (36V - 4.2A)

INTEGRATED WIRE FEEDER

Compatible wire reels: Ø 200 / 300 mm

EURO torch connector

quick assembly / disassembly.

Support for gas cylinder

up to 4 m³.

- Welding current adjustable from **20A to 160A**
- Duty cycle of **95A at 60%** (40°C)
- **Single-phase power** supply 230V - 16A
- Digital interface with real-time display of Welding voltage and Welding current.
